ANNUAL MEMBERSHIP

Annual members, in addition to having the privilege of attending the fair at all times day or night, with or without a vehicle at no charge, may attend and have a vote at the stated annual meetings, held the fourth Wednesday in January. Annual Membership available for sale - $40.00
General Prohibitions and Requirements

- No person shall bring or have present an animal on the fairgrounds during a fair which is not qualified under NYS regulations.
- No person shall present an interstate or intrastate certificate of veterinary inspection that has been altered by anyone other than the issuing veterinarian.
- Animals demonstrating clinical signs or other evidence of infectious, contagious or communicable diseases shall not be allowed on the fairgrounds during a fair.
- Representatives of the Commissioner may deny admission to or require removal from the fair premises, or require the segregation of any animal showing signs of or exposed to any infectious, contagious or communicable disease. Note: The Fair Board of Directors has the authority to reject unworthy or unsightly exhibits for reasons other than infectious, contagious or communicable disease (Part 350.10). The state veterinarian or animal health inspector will bring questionable exhibits to the attention of the fair board.
- All animals presented that originate from a location other than New York shall meet all New York State importation regulations appropriate to the species in addition to the fair animal health requirements.

CERTIFICATE OF VETERINARY INSPECTION (CVI)

- Cattle, sheep, goats, swine, llamas, alpacas, deer, and misc. ruminants require a valid CVI to enter the fairgrounds.
- The CVI must be issued by a Category 2 accredited veterinarian.
- Only one species is allowed per certificate.
- The type and duration of certificate required depends on the origin of the livestock.

New York Origin Livestock:

- A valid intrastate CVI (A1 61) is required.
- Each animal must be individually identified on the CVI.
- The CVI must be issued on or after May 1 of the current year.

Out of State Origin Livestock:

- All animals entering New York State must satisfy import health and test requirements for that species and be accompanied by a valid interstate CVI.
- The interstate CVI is valid for 30 days from the date of CVI inspection. During the fair season (July 1 through Labor Day) valid CVI’s can be used multiple times for entrance into fairs. The initial entrance into a fair must be within 30 days of the date of CVI inspections. In order for the CVI to be used for a later fair, it must be dated and initialed by a state official noting the location of the initial fair. A change in health status or eligibility of an animal necessitates the generation of a new CVI.
- Questions regarding import requirements should be directed to the Division of Animal Industry at 518-457-3971, or at the division’s import/export homepage: http://www.agriculture.ny.gov/A1/import_export.html
**Animal Identification**

- **ALL MANMADE ID MUST BE RECORDED**
- Cattle, sheep, goats, swine, and deer/elk must be identified by USDA approved official identification. Cattle, Swine and deer/elk must be identified by official ear tag. Sheep and goats must be identified by official scrapie identification (see sheep and goat sections below). **840 RFID tags are not required this year for cattle and sheep but encouraged.** Sheep and goats must be identified by official scrapie identification (see sheep and goat sections below).
- Llamas and alpacas must be identified by official ear tag or microchip.
- A complete written description is sufficient identification for horses entering New York accompanied by a CVI. The description must match the EIA test record. Horse sketches and descriptions should reference color pattern, hair whorls, chestnuts, scars and other markings as necessary to uniquely identify the horse. Tattoos and microchips if any should be included. “Bay, no markings” is not an acceptable description for a CVI or EIA test record.
- **NOTE:** If you are exhibiting animals identified by microchip a working reader must be supplied by the exhibitor.
- For questions on animal identification please contact your veterinarian or our office at 518-457-3502.

**RABIES VACCINATION**

- Rabies vaccination is required for all species for which there is a USDA licensed vaccine available (cattle, horses, sheep, dog, cat, ferret) and that are 4 months of age or older on the date of admission to the fair.
- Vaccine must have been administered within the past 12 months. The exception is Imrhab LA vaccine used in sheep which protects for 3 years after the second annual vaccination (consult your veterinarian).
- The rabies vaccination requirement must be met on the day of admission even if the animal was previously admitted to a fair when too young to vaccinate.
- **Note:** Individual fairs can require animals for which there is no approved rabies vaccine to be vaccinated for rabies. The requirements outlined above would apply. The fair is responsible for notifying exhibitors. The New York State Fair requires rabies vaccination for all livestock species entering the grounds.

**Acceptable Proof of Rabies Vaccination**

- Acceptable proof of rabies vaccination must include a signed written statement from the veterinarian administering the vaccine or a valid certificate of veterinary inspection that has the vaccination listed and is signed by the Category 2 accredited veterinarian.
- Acceptable proof of vaccination must include the name of the product used, the date of administration and the duration of immunity if longer than one year.
- If the statement of rabies vaccination is included on an EIA test record, it must be signed separately in addition to the required EIA test record signature.
- **NOTE:** Rabies titer are not acceptable proof of rabies protection and cannot be used to meet entry requirements.
- Acceptable proof of vaccination for dogs is a valid vaccination certification or a copy of the dog license that contains the rabies vaccination information.
BVD-PI Testing

- All cattle, llamas and alpacas exhibited at NY county fairs or the State Fair must be negative to an approved test appropriate to detect Bovine Viral Diarrhea persistent infection (BVD-PI). This is a once in a lifetime test that must be reported on the required certificate of veterinary inspection. The issuing veterinarian is responsible to make sure the proper test is conducted. The issuing veterinarian is responsible for verifying the validity of the test, the identification of the animal and recording the test date on the CVI. If a previous test is not verifiable, the test must be repeated.

Cleaning and Disinfection

- All buildings on the fairgrounds housing animals must be cleaned and disinfected prior to the opening of the fair and between groups of animals when housing is rotated (Section 50.02 of Agriculture and Market regulations)

Animal Deaths

- Occasionally animal deaths occur at a fair. If a death occurs it must be reported to the state veterinarian in charge as soon as possible to review. The animal must be promptly removed from the public exhibit area to a secure location and held for the veterinarian prior to disposal.

Calving, Kidding and Lambing

- Any cattle, goats, or sheep that calve, kid or lamb while at the county fair or the State Fair will be ordered removed from the fairgrounds along with their offspring, unless the animals are part of a birthing demonstration.

Commingling of Sheep and Cattle

- Due to the potential spread of malignant catarrhal fever from sheep to cattle, it is strongly recommended that cattle be kept separate from sheep

Commingling of Swine and Poultry

- Due to the potential spread of influenza viruses it is recommended that swine and poultry be housed separate locations.

Isolation on Returning Home

- The owner or custodian shall keep show animals biologically separate from the herd or flock for a period of at least two weeks after returning to the premises of origin. If any illness is noted in the exhibition animals the owner should contact their veterinarian immediately.
INDIVIDUAL SPECIES REQUIREMENTS

If a species is not mentioned, please check with NYS Department of Agriculture/Division of Animal Industry at 518-457-3502 for specific fair entrance requirements

Exhibitor Prefair Guidelines

Cattle, Sheep, Goats, Swine, Llamas and Alpacas, Cervids, Misc. Ruminants
- Review the animal health requirements booklet including information for your species before your veterinarian arrives to inspect your animals. If you have any questions ask.
- Your veterinarian is responsible for inspecting your animals and completing the certificate of veterinary inspection (CVI). Call early to avoid the last minute rush when mistakes are made and there is no time to correct.
- 840 ear tags (RFID or visual) are present on cattle and swine are not required but encouraged.
- USDA approved scrapie ID is in place on sheep and goats.
- Llamas and alpacas require a microchip or ear tag. If a microchip is utilized make sure the veterinarian confirms the microchip ID or places one. If your animal id identified by a microchip, make sure you bring a working reader with you to the fair.
- ALL IDENTIFICATION MUST BE RECORDED. Make sure it is.
- Review the CVI carefully upon receipt to make sure all the information is correct including any required test or vaccination information.
- DO NOT stuff it in an envelope and assume all is well. The time to correct is before pulling them out at the fair. The CVI is your document and you share responsibility if it is incorrect.
- If you are importing livestock from out of state make sure the interstate requirements are met and you have a valid interstate certificate of veterinary inspections.

Poultry
- Schedule pullorum flock inspection and testing well ahead of the fair if your flock is participating in the NPIP program.
- Birds qualified y 90 day test must be identified by official leg band.

- Imported horses must be accompanied by an interstate certificate of veterinary inspection with a negative EIA test within 12 months. Rabies vaccination information can be incorporated into the CVI.

1. Premiums will not be paid on animals or articles of inferior merit. All judges will follow this rule explicitly.

2. No animal or article can compete for more than one premium, except for sweepstakes (4-H Club members excluded).

3. Premiums absolutely will not be awarded to "String Men" or on exhibits "loaned" for the occasion, even though entered. The Fair is managed to encourage competition among amateurs of this region and exhibits must have been produced, raised, or made by the exhibitor and owned and housed at least 30 days before entry. Any attempt to evade this rule will further debar the person from competing for premiums for a period of five years.

PAYMENT OF PREMIUMS

A check, together with statement for the amount of awards will be forwarded to the exhibitors, to whom premiums have been awarded.

Since the check is part of the Society's report to the State Agricultural Department, being required by law in an early detailed report, all checks issued for premiums must be presented for payment no later than November 1st.

SUPERINTENDENTS

1. The duties of the General Superintendents are a general supervision of the Fair Grounds, under the Board of Managers.

2. Superintendents of each Department will have charge of their Department and the cooperation of the Exhibits, Contests and Judging Committees, in making their department a success. They are urged to use their best endeavors in this direction.

3. It shall be the duty of each Superintendent to receive all property entered for exhibition in their department, to see that the tags are securely attached, place and arrange same in a suitable and attractive manner. They shall be in attendance while the judging is being done in their department and countersign the reports of all judges before they are returned to the Secretary.
4. **Superintendents to be in respective departments at 9:00 A.M. and prepared to receive exhibits between 10:00 AM and 6:00 PM on Tuesday for all animals and 10:00 AM and 8:00 PM for all non-animals.**

5. If animals are not clean and worthy of exhibition, Superintendent can require them to be removed from exhibition and the grounds.

### JUDGES

1. Judges are requested to report promptly at the Secretary's office or Department Superintendent to receive instruction.

2. Judges will examine the Premium List and Regulations with care. No person shall act as judge who in any way is interested in the article to be judged.

3. The judges have been selected with the sole aim of making careful, unbiased and intelligent decisions.

4. No person or persons will be allowed to interfere with the judges in discharge of their duties. Persons wishing, however, to explain about their exhibit may do so through the superintendent of the department concerned.

5. Reports of the judges shall bear their signatures, also that of the department superintendent, and be filed immediately with the secretary.

6. When there is but one exhibit in any class, its merits shall be considered with the same thoroughness as though it were in close competition, designating 1st, 2nd, or 3rd place. No premium shall be awarded if an exhibit is of inferior quality and same noted in judge's book as "not worthy".

7. Judges are instructed to do full justice in their capacity and be especially careful that the tickets designating an award agree with the judge's book.

8. Judges will receive their books from the Secretary or Department Superintendent and when the awards are completed, the book must be returned to the Secretary or Department Superintendent at once.

9. The decision of the judges shall be final in all cases, except where mistakes, frauds or misrepresentations are shown. In such cases the directors shall decide.

10. Judges will, wherever possible, publicly explain their reasons for the placing of premiums, in order that the exhibitor may gain more knowledge in the requirements of this particular exhibit.

### CONCESSIONAIRES

1. Applications for privileges should be made to Fonda Fair 518-853-3313. No Concessionaire or exhibitor will be permitted to sublet or share any portion of the space allotted to him, without written permission from the Society. A violation of this rule will result in the original purchaser of space forfeiting all his rights, including monies paid, and ejection from the grounds.

3. Concessionaires must keep their spaces in a neat, orderly and sanitary condition and remove therefrom any filth or refuse and place the same in garbage cans.

4. Representatives of newspapers or magazines, if accepted, will be assigned permanent locations, and they will not be permitted to solicit subscriptions except at the location assigned.
5. The distribution and posting of hand bills, posters, banners or other advertisements that may become a nuisance is forbidden.

6. No soliciting, peddling or selling of any kind will be allowed in the buildings or on the grounds, except by special permit or license obtained from the Concession’s manager.

7. No sale or distribution of any merchandise, including printed or written material, except under license issued by the Fonda Fair.

OFFICERS AND POLICE

1. Officers and the Police appointed by the Society to keep order and preserve the Rules and Regulations of the Society shall adhere rigidly to instructions and faithfully keep vigilant watch during the exhibition.

TO: ALL DAIRY EXHIBITORS  
FROM: FONDA FAIR BOARD

Due to the severe penalties imposed by the State of New York Agricultural Department from the contamination of milk by antibiotics, we are forced to enact the following rules and regulations:

1. If antibiotics are detected in the milk, all users of the parlor facilities will have to supply a milk sample for each milking animal.
2. Individuals or parties found having antibiotics in milk, which was processed through parlor, will be liable for all financial loss created by contamination.
3. Individuals or parties responsible will be banned from livestock exhibition for a period of three (3) years.
4. Any tank of milk that gets rejected for any reason such as penicillin, etc., then NO ONE gets paid for that tank.

We regret having to take such severe measures, but find it necessary to protect all those individuals using the milking facilities.

A spray nozzle will be necessary on all hoses used to wash animals at the Fonda Fair due to the installation of water meters.

RULES FOR 4-H CATTLE BEING MOVED TO OPEN CLASS BARN

1. All rules are at the discretion of dairy superintendent and the superintendent’s decision will be final.
2. These rules will apply as long as exhibitor’s parents/family have cattle exhibited in the open class barn if they do not, you will automatically be placed in the 4-H barn.
3. Availability of stalls in the open class barn.
4. Small children with families in the open class barn will take first priority (under age 13)
5. Cows in milk
6. Older children with medical issues/special circumstances – to be discussed with the superintendents prior to stall assignments.
7. If the majority of cattle exhibited are 4-H cattle and there are only a couple family owned open class cattle – if there is limited space in the open class barn then all of these cattle will be moved to the 4-H barn, i.e. 4 animals are 4-H cattle, and 2 are just open class animals and space if very limited all of these can be moved to the 4-H barn to keep the family together.
8. Please do not reserve extra stalls for tack – every effort will be made to make sure you have adequate tack stalls/space available for you. If this is not done voluntarily, a mandatory penalty fee may be charged in the future for any extra stalls you reserve above and beyond the actual number of animals you bring.

FARM AND GARDEN PRODUCTS
Mike Montario (518-296-8494)

Entry Fee is 10% of first premium, with a minimum entry fee of $3.00.
All articles exhibited for a prize must have been grown by the exhibitor.

⇒ No exhibit shall compete for more than one premium. Unless otherwise noted, all products must have been grown in the current season. No prize will be awarded where entry lacks merit. In classes of no competition, premium may be awarded according to merits of the article. In case of tie, duplicate prizes will be given.
⇒ Entries to be in place Tuesday 10:00 AM to 8:00 PM.
⇒ Take out time Monday after 8:00 PM or Tuesday 7:00 AM until Noon
⇒ No double entry will be allowed.
⇒ Please read entry info carefully.

SECTION 1 - FIELD CROPS
⇒ All entries in the classes in this section must have been grown by the exhibitor during either the year exhibited or the preceding year. Exhibits known to be older will be disqualified. The year in which the exhibit was grown must be stated on the exhibitor's tag.
⇒ The seed value of exhibits will be emphasized in the judging. Grains clipped, scoured or bleached may be disqualified at the discretion of the judges, since grains so treated are objectionable for seed purposes. In judging seed value, the following factors will be considered:
  (a) Purity of the seed. Relative freedom of other crop plants, dirt, chaff, sprouted kernels and broken kernels.
  (b) Relative freedom from obvious diseased seed.
  (c) Relative freedom from mixtures of other varieties.
  (d) Probable viability of the seed, as indicated by its physical condition.
  (e) Uniformity of the seed as to size, shape and color.
  (f) Trueness to type. All exhibits should be correctly named as to variety. Exhibits that are distinctly off-type or misnamed will be disqualified.
  (g) Variety must be designated.

⇒ The display shall include at least 15 different vegetables, not over three varieties of each kind. The vegetables must be plainly labeled with variety name.
⇒ Number of specimens per plate same as indicated in single exhibit for that kind of vegetable.

To be judged from the following scale of points:

Quality (uniformity in type, color, size and freedom from blemish)........50%
Correctness of naming varieties and trueness to type..............................12%
Commercial importance of varieties......................................................10%
Completeness of collection ........................................................................14%
Skill in arranging exhibit...........................................................................14%
TOTAL........................................................................................................100%
SECTION 6 – POTATOES

⇒ Instead of awarding premiums on a large number of varieties, potatoes will be shown in groups, the varieties in each, which are similar. All varieties listed under each group will compete against each other.
⇒ Each group and variety should be prominently labeled. A plate shall consist of 3 tubers.

**Characteristics Desirable in Selection Samples**

In judging each sample the following characteristics will be taken into consideration and in scoring them they will be rated according to the following percentages:

<table>
<thead>
<tr>
<th>Characteristics</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freedom from tuber diseases and blemishes</td>
<td>30%</td>
</tr>
<tr>
<td>Uniformity (all physical characters considered)</td>
<td>20%</td>
</tr>
<tr>
<td>Trueness to type (skin, color, eye and shape characteristics of variety)</td>

</tr>
<tr>

**Preparation of Sample**

⇒ In preparing variety of sample for exhibit, it is never desirable to wash the tubers. Washing tends to obliterate the typical characters of the skin and to amplify any imperfections in it. Careful brushing with an ordinary whisk broom will greatly improve the appearance of the sample by removing dirt and at the same time not alter the characteristics of the skin.
